

# Star City

## Miami the magical

Miami is America's sexiest city, a sun-drenched metropolis that's a favored destination both for northerners seeking to escape their home cities' harsh winters and for vacation-goers from Europe and beyond. But Miami's real identity comes from its southern neighbors: Latin America and the Caribbean. For many decades now, people from south of the US border have been relocating to Miami, transforming the city into the veritable cultural and artistic capital of Latin America. Art Deco, Latino culture, a sizzling nightlife, a dynamic art scene and pristine beaches as far as the eye can see: Miami captivates with its very own brand of oceanside magic.
